

TED TIDBITS...

Our outing to Hampden Park on Saturday 8th April started off on a disappointing beginning with only 5 people turning up to travel on the coach. The usual supporting stalwarts were there; Bob, Andy, Gordon, Patrick and myself of course. We spread ourselves out to make it appear that the coach was full especially when we passed the team coach on the A9 and gave them a salute! The weather helped by being dry and sunny all day. We found the ground eventually after following signs that disappeared, always at major junctions. We made up for that by finding Queen's Park social club straight away! We were made very welcome by our hosts and had some lively discussions about the game in general. The Belshaven best draught was very good and Andy said the South Australian Shiraz was very nice. Patrick enjoyed his coke.

We managed to get to the match on time and spread ourselves out again, not with very much success I'm afraid as a 60,000 seater stadium with 200-300 spectators in situ looks very empty!

The first half was scrappy but the second half was very much better especially when Kerrigan came on. The whole team seemed to lift themselves up and played good football ending in a 2-2 draw.

We had a good journey back and reached Montrose at 7:20pm – on the whole a good day out!

Our last coach of the season is to Albion Rovers. Lets see if we can get more support this time.

Cheers!
